

Equip your space with BoxUp!

We're invested in introducing innovation to the play and leisure sector. That's why we've partnered with **BoxUp** to bring the future of accessible equipment to the UK.

What is BoxUp?

BoxUp is an equipment sharing solution that makes it easy to access leisure equipment and games wherever you might need them.

Each BoxUp station consists of a set of durable, modular lockers that can house anything from sporting equipment to board games. Each locker comes fitted with anti-break-in electronic locks and a polycarbonate window to allow users to see exactly what equipment is available to them.

Why do we need BoxUp?

Recent studies show that over 1/3 of people in the UK do not meet the recommended requirements for physical activity. This is, in part, due to a lack of access to sporting equipment and other materials. BoxUp is our solution.

How does it work?

All you need to access a Box Up station is the BoxUp app. Once you've got that downloaded, you can connect wirelessly to your station of choice, allowing you to access equipment for up to 3 hours! Once you've finished playing, simply put the equipment back!

Who can use it?

In short, anyone! With over 1500 lockers installed worldwide and a total of 150,000 hours of recorded use, BoxUp is guaranteed to grant accessibility to your sporting facility, leisure centre, MUGA, skate park, or public open space.

What's more, thanks to its hyper durable frame and ultra-low energy consumption, BoxUp requires minimal maintenance, ensuring that users can rely on easy access to sporting equipment whenever they need it.
